3.1 Interstate IntraLATA Service - Schedule I (Cont'd)C. Rate and Charge Application (Cont'd)3. Initial Minute, Additional Minutes, Service Charges and Discounts (Cont'd)e. Service Charge

A Service Charge applies to each Customer Dialed Calling Card Station, Operator Station, Person-to-Person, or Coin Telephone Station-to-Station Correction Collect call. This charge is added to the initial minute and additional minute charges. (C)

(1) Discounts do not apply to the Service Charge. (C)

f. Rate Periods

Day Rate Period is in effect Monday through Friday (8:00 AM - 5:00 PM)

Evening Rate Period is in effect Monday through Friday and Sunday (5:00 PM - 11:00 PM)

Night and Weekend Rate Period is in effect at all other times.

These rate periods are depicted on a chart illustrated in 3.1(C)(7) following.

g. Payphone Use Fee

A Payphone Use Fee applies to Interstate IntraLATA toll calls where the call is placed as a Customer Dialed Calling Card Station, Operator Station, or Person-to-Person Call rather than by depositing coins in the payphone. This fee does not apply to calls made to 911 or Directory Assistance, calls by hearing disabled persons to a telecommunications relay service, or calls for which the required coins have been deposited.. The Payphone Use Fee is added to the initial minute and additional minute charges.

4. Rates Applicable for Hearing or Speech Impaired Personsa. Application

Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist, or appropriate State or Federal agency as having a hearing or speech impairment which precludes oral communications and who have and use a telecommunications device for visual communications, will receive a day and evening adjustment on Directly Dialed Station-to-Station calls which do not require the intervention of an operator. The adjustment is applied to rate tables in 7 according to the following:

(Issued under Transmittal No. 228)

3. SERVICE CLASSIFICATIONS AND RATES (TWO-POINT) (Cont'd)

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)C. Rate and Charge Application (Cont'd)4. Rates Applicable for Hearing or Speech Impaired Persons
(Cont'd)a. Application (Cont'd)

- (1) Calls placed during the day rate period will be charged at the evening rate.
- (2) Calls placed during the evening rate period will be charged at the night rate.

b. Certification

The written certification of the speech or hearing impairment must be presented to the Telephone Company Business Office which serves the residence of the certified person.

The Telephone Company Business Office, upon request, will provide a certification form for use by the applicant.

c. Limitations

The adjustment is provided for use by the speech or hearing impaired Customer. It is only applicable to IIMTS charges for calls originated from and billed to the telephone exchange service of the residence of the certified speech or hearing impaired person. The adjustment is applicable to only one telephone exchange service for a person or at a residence.

5. Reversal of Charges (Collect Calls)

Collect calls are permissible for all Interstate IntraLATA telephone calls except messages to which Dial Station rates apply.

The regularly established Operator Station, Person-to- (C)
Person, or Coin Telephone Station-to-Station Corrections (C)

General

Verizon Prepaid Calling Card Service provides additional payment options to customers who need to make calls within and outside of Telephone Company LATAs. The prepaid Card will be used for toll calls and can be used at any phone with touch tone capabilities. Customers will be able to purchase the prepaid Card from various retail outlets throughout the Telephone Company region. All InterLATA toll calls will be carried by the selected Interexchange Carrier ("IXC"). The Telephone Company will negotiate in a nondiscriminatory manner with all IXCs who wish to provide service for calls made using the Verizon Prepaid Calling Card Service. The prepaid Card will be available in \$5, \$10, and \$20 denominations.

Service Description

In order to activate the prepaid Card, customers should refer to the set of instructions contained on each card purchased. The customer will be instructed to dial a designated 800 number, the specified card authorization code found on the card, and the desired telephone number. Voice prompts will instruct the customer if any of the numbers entered are invalid. Once the system confirms that all of the numbers are valid, the call will be processed. At the start of the call, the customer will be advised of the time available on the card. The time available on the card will decrease automatically during the call at the established rate per minute. The customer will be given a "one minute warning" indicator that the card is only valid for approximately one additional minute. Customers can combine minutes from partially used cards to ensure that the entire value of the card is consumed. The call will be terminated when the value of the card is exhausted. At that time, customers may choose to end the call or elect to combine the value of partially used cards to continue the call. Voice prompts will instruct the customer as to the proper method of combining cards.

The rate for the Verizon Prepaid Calling Card Service will apply to all applicable minutes regardless of the time of the call.

General Regulations(1) Intelligent Toll Free Service Description

Intelligent Toll Free Service is an intraLATA service that provides the customer with a Toll Free telephone number and the ability to receive incoming calls over a facility associated with a ten-digit local exchange access number, which is located within the same LATA as the customer in the States of Maryland, Virginia, West Virginia, or the District of Columbia. When a call is made to the toll free number, the originating end office switch sends a network query to a special database that links the toll free number to its local exchange access line number.

Each Intelligent Toll Free Service telephone number will be arranged to receive interstate intraLATA calls, which will be provided by the Telephone Company.

The three types of Intelligent Toll Free Services are:

- (a) Intelligent Toll Free Standard Service where service is provided via a usage bulk billing arrangement.
- (b) Intelligent Toll Free Basic Service where service is provided via a usage per message billing arrangement.
- (c) Intelligent Toll Free Key Connections Service where service is provided via a discounted usage per message billing arrangement. Intelligent Toll Free Key Connections Service is only available in the States of Maryland, Virginia, and West Virginia. Customers subscribing to Intelligent Toll Free Key Connections Service must also subscribe to the Key Connections Volume Discount Calling Plan as specified in section 3.1(F) (2) preceding.

Each Intelligent Toll Free Service telephone number must be associated with a unique terminating seven-digit telephone number obtained by the customer. Interstate intraLATA calls terminating to a Intelligent Toll Free Service telephone number are subject to the terms and conditions of this tariff.

(2) Availability of Service

The provision of service under this tariff is subject to the availability of the required facilities in the Telephone Company's central office.

General Regulations (Cont'd)(3) Limitation of Service

(a) Calls to Intelligent Toll Free Service telephone numbers are dialed and completed without the assistance of an operator, and do not include:

- Person-to-Person calls
- Collect calls
- Conference calls
- Any other classification of operator handled calls

(b) Intelligent Toll Free Service usage cannot terminate into a telephone number associated with Feature Group A or Feature Group B.

(4) Use of the Service by the Customer

(a) Orders, including those which involve the installation, rearrangement, release, or disconnection of service, will be accepted by the Telephone Company only from the customer or by the customer's authorized agent.

(5) Minimum Period

The minimum period for Intelligent Toll Free Standard Service is one month. The minimum period for Intelligent Toll Free Basic Service is six months.

General Regulations (Cont'd)(6) Termination Liability

If Intelligent Toll Free Basic Service is disconnected within six months from the date of connection, a termination charge as specified in section 3.1(I)(2) following will be assessed. If the Intelligent Toll Free Basic number is being moved to the Intelligent Toll Free Standard Service or to the Intelligent Toll Free Service option of the Key Connections Optional Calling plan, the termination charge does not apply.

Rate Regulations(1) Minimum Average Time Requirement

(a) Intelligent Toll Free Standard Service

Minimum usage charges are based on an average of 30 seconds per completed call for each billing period. This means that if the average duration per call during any billing cycle is less than 30 seconds, billing will be based on an average of 30 seconds per call.

(b) Intelligent Toll Free Basic Service

Minimum usage charges apply to individual messages during a billing period. If the charge per message does not result in whole cents, charges will be rounded to the nearest penny when the bill is rendered.

1. Initial Period

The initial period for telephone connections is 30 seconds or fraction thereof.

(b) Intelligent Toll Free Basic Service (Cont'd)

2. Additional Period

The additional period for telephone connections is 6 seconds or fraction thereof.

(2) Method of Determining Usage Charges for Intelligent Toll Free Standard Service Calls

(a) Determine the total number of calls for each Intelligent Toll Free Standard telephone number separately.

(b) Determine minimum chargeable hours by multiplying the number of calls by the minimum average time requirement of 30 seconds (1 call = 30 seconds).

(c) Determine the total actual hours used.

(d) Determine the number of chargeable hours, which is the greater of (2) or (3) above, rounded to the nearest hundredth (two decimal places).

(e) Determine usage charges by multiplying the hourly rate in the appropriate taper(s) by the number of chargeable hours used in each taper and totaling these charges.

(3) Method of Determining Usage Charges for Intelligent Toll Free Basic Service Calls and Intelligent Toll Free Key Connections Service Calls

The rate for the initial period is applied for each message. Plus for the duration of the message, the rate for an additional period is applied for each increment of 6 seconds beyond the initial 30-second period.

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)(E) Generic Optional Calling Plans

(S) (x)

(1) General

Generic Optional Calling Plans (Plans) are Interstate optional calling plans that must be ordered in conjunction with Intrastate IntraLATA calling plans. The Plans provide an alternate rate treatment for either residential or business customer-dialed Interstate IntraLATA toll calls that are completed without the assistance of an operator.

Customers enrolling in one of the optional Plans will be billed at the rates shown in Sections (3) and (4) following in lieu of the regular Schedule I Interstate IntraLATA rate schedule provided in Section 3.1(C) (7) preceding.

(2) Regulations

The regulations associated with the Plans as offered under this section include only the applicable regulations set forth in other sections of this tariff and the following regulations, which apply to all Plans.

- (a) The regulations included in this section apply only to Interstate IntraLATA toll calls.
- (b) Plans are available only to customers that have enrolled in a Plan and that have selected this Company as their IntraLATA Toll Provider.
- (c) There is no charge for enrolling or discontinuing a Plan, except as noted in Sections (4) (b) (iv) and (v) following.
- (d) Each Plan is order separately and is not available in conjunction with any other Company-provided Optional Calling Plan, as offered in Section (D) preceding, or Company-provided Generic Optional Calling Plan, as offered under this section, except as noted in Section (4) (a) (i) following.
- (e) Each Plan allows customers to complete calls 24 hours a day, seven days a week, including holidays.
- (f) Each Plan provides uniform rates that do not vary by time of day or day of week.

- (i) The minimum payment period for this plan is one month.
- (ii) When the customer's total direct dialed toll usage revenue reaches a level of \$20.00 or more during a monthly billing period, a 20% discount will be applied to the customer's total direct Dial Station toll usage.
- (iii) The 20% discount as specified in this tariff will only apply to the customer's Interstate IntraLATA usage.
- (iv) This generic optional calling plan applies to all Residence lines associated with a Main Billing Account. Usage from all Residence lines will be accumulated and billed as if a multiline Customer were a single account.
- (v) For billing purposes, each month is considered to have 30 days. When the date that this generic optional calling plan is subscribed to, changed, or discontinued does not coincide with the billing date, charges which are based upon monthly rates will be calculated to reflect the fractional part of the month service is provided. That total will then be discounted 20% to determine the charge to the customer.
- (vi) In cases where a message begins in one rate period and ends in another, the rate in effect at the time the connection is established applies to the initial minute. The rate for each additional minute is the rate in effect at the beginning of each additional minute of usage.

3.1 Interstate IntraLATA Service - Schedule I (Cont'd)(E) Generic Optional Calling Plans (Cont'd)(4) Business Generic Optional Calling Plans (Cont'd)(b) Corporate Rewards

Corporate Rewards discounts Interstate IntraLATA service based on a business customer's revenue from Interstate IntraLATA usage in accordance with the regulations shown in Section (E) (2) preceding.

(i) Volume Discounts

1. A volume discount applies to Interstate IntraLATA monthly usage revenues aggregated from all of a business customer's billing telephone numbers (BTNs) that subscribe to Corporate Rewards.
2. There are minimum and maximum usage revenue thresholds within which a customer's usage revenue must be in order to qualify for a volume discount. Thresholds are designated as revenue tiers, as set forth in Section (v) following.
3. A customer's revenue tier is determined by rating its Interstate IntraLATA usage at the Toll Base Rate shown in Section (v) following.
4. The volume discount is automatically adjusted should a customer's usage revenue vary between revenue tiers.

(ii) Loyalty Discount

1. A loyalty discount commences in the 13th month a customer is enrolled in Corporate Rewards and increases each consecutive year the customer stays on the plan, up to and including the 5th year. After the 5th year, customers will continue to receive a loyalty discount capped at the 5th year discount level. The loyalty discount will apply to the customer's discounted monthly Interstate IntraLATA usage revenues and will be applied at the BTN level.
2. The loyalty discount will not apply to customers whose usage revenues exceed the Tier 4 maximum monthly aggregated usage revenue threshold.

1. Customers may terminate participation in Corporate Rewards at any time, provided the customer gives the Company a 60-day written notice. The termination will go into effect in the first full billing period following the 60-day notification period. If a customer chooses to cancel Corporate Rewards or disconnects the main BTN identified in the plan, a termination charge as set forth in Section (v) following will apply.
2. A customer is exempt from paying a termination charge under the following conditions:
 - a. A customer migrates to another Company generic optional calling plan or selects a new main BTN; or
 - b. A customer terminates participation on the expiration date of the service period. The customer must provide a 60-day written notice prior to the expiration date. The Company will terminate Corporate Rewards in the first full billing period following the 60-day written notice or the first full billing period following the expiration date, whichever is later; or
 - c. In the event the Company initiates an increase in the rates or a decrease in the discount percentages, the customer may terminate Corporate Rewards without termination charges.

1. Service is available to and from customers of the miscellaneous common carriers listed in B. following through connecting facilities provided by the Telephone Company in accordance with the provisions set forth in A.2. through A.6 following.
2. Rates between the rate center applicable to the miscellaneous common carrier and the applicable rate center of the point or applicable mileage rate band are those set forth in 3.1 (Interstate IntraLATA Service) as appropriate. Additional charges, which the miscellaneous common carrier bills to and collects the haul, as set forth in B.1 following or in the tariff indicated in B.2 following. V-H coordinates for the rate centers applicable to the miscellaneous common carrier can be obtained by reference to AT&T Communications Tariff F.C.C. No. 274.
3. Subject to the availability of facilities and the reasonable requirements of the Telephone Company for its telecommunications services, the Telephone Company will, at the miscellaneous common carrier's request, extend and physically connect its facilities with those of the miscellaneous common carrier for the connection with the miscellaneous common carrier's Domestic Public Land Mobile Radio Services (as defined in Part 22 of the FCC Rules). Such connection and interchange of interstate traffic shall be as follows:

a. Two-Way Mobile Traffic

The Telephone Company will extend and connect its facilities between any telephone exchange whose rate center is located in the miscellaneous common carrier's Reliable Service Area (as defined in Part 22 of the FCC Rules) and the miscellaneous common carrier's control point(s) or communications system serving that Reliable Service Area.

3.6 Aviation Radiotelephone Service3.6.1 Air-Ground Service - Through Land Stations of this Company and Concurring Carriers and Connecting Carriers (other than Miscellaneous Common Carriers)A. Application

1. Air-ground service is a two-way telecommunications service furnished through the following radiotelephone stations.
 - a. Air-ground Service Stations of the Verizon Telephone Companies

<u>Rate Center</u>	<u>Serving Carrier</u>
Beckley, W. Va.	Verizon West Virginia Inc.
Washington, DC	Verizon Washington, D.C. Inc.
2. Service is available to aircraft which are authorized by the Federal Communications Commission to communicate with the radiotelephone stations listed below when equipped for this service and when within range of these stations. Service is furnished subject to transmission, atmospheric and like conditions.
3. The services offered are those referred to in C.1. and C.3. following.
4. Conference service is not available to aircraft served through the radiotelephone stations listed in A.1.a.

B. Regulations

1. Service is offered on a Dial Station, a Customer Dialed Calling Card Station, an Operator station, or on Person-to-Person calls originating from aircraft. Person-to-Person calls will not be completed to the aircraft.
2. Access to the Air-Ground attendant for the purpose of attempting to reach an aircraft is obtained via either a directly dialed, calling card or third-number call over the Public Switched Telephone Network. The charges for this call are set forth in tariffs of this company or rate schedules of other companies providing such service. These charges will apply to the calling party on all calls completed to the Air-Ground attendant, regardless of whether the call is completed to the aircraft. If the call is completed to the aircraft, Air-Ground service station charges will apply.

3. A Call is considered to have been terminated when an aircraft flies out of range of the Air-Ground Service Station even though communication was in progress at the time. Reestablishment of a connection through the different Air-Ground Service Station constitutes a new call.

C. Rate and Charge Application

1. Rates for service are determined as specified in 2. below between:
 - a. a point in the LATA and an aircraft served through an Air-Ground Service Station in the LATA.
 - b. two aircraft served through Air-Ground Service Stations listed in A.1.a. preceding.

Air-Ground Service Station charges are always billed to the aircraft.
