

ILLUSTRATIVE

8. ADVANCED COMMUNICATIONS NETWORKS

8.4 QWEST DSL SERVICE (CONT'D)

8.4.2 REGULATIONS

A. *QWEST DSL HOST* Service

(D-x)

B. Obligations of the Customer

(D-x)

1. When a customer orders *QWEST DSL* Service, the customer must provide compatible customer premises equipment (CPE). In addition, the customer must specify the Company-provided local exchange Telecommunications Number (TN) or service address to be used. A Telecommunications Number is not required with Stand Alone *Qwest DSL*.
2. When a customer orders *QWEST DSL HOST* Service, the customer must provide the necessary information (e.g., Data Link Connection Identifier(s), and/or Internet Protocol) to provision *QWEST DSL HOST* Service using Company ATM Service.
3. The customer may request a design change to the service ordered. A design change is any change which requires engineering review. Design changes do not include a change of customer premises, end user premises or *QWEST DSL HOST* Access Link speeds. Changes of this nature will require the issuance of a new order and a cancellation of the original order. Cancellation charges are set forth in 5.2.3, preceding. Changes in *QWEST DSL* Service and *QWEST IDSL* which result in the service(s) pointing to a different *QWEST DSL HOST* Access Link are design changes and subject to the Design Change charge as set forth in 5.2.2, preceding. Changes requested on the Plant Test Date (PTD) or later will require the issuance of a new order.
4. Changes in *QWEST DSL* Service and *QWEST IDSL* Service speeds will result in a Speed Change Charge as set forth in 8.4.5.A., following.
